

FailSafe[®] GIGA

An E&O policy that includes breach of warranty coverage

In a world of emerging risks, The Hartford's FailSafe suite of professional liability products can meet the protection needs of technology companies.

Key Features

Here are some of the key features of FailSafe GIGA that may be especially valuable for your technology clients:

- Claims first made and reported policy
- Universal coverage territory
- Defense within the limits
- Up to \$10,000,000 in limits available
- Minimum premium range from \$1,500 for limit of \$1,000,000
- Minimum retention of \$2,500
- Basic and optional extended reporting periods
- Breach of warranty coverage
- Definition of technology services is made to order

Target Market

FailSafe GIGA is ideal for companies that offer the following types of technology services:

- Development, sales, installation, integration and/or maintenance of:
 - Hardware
 - Packaged software
 - Custom software
- Consulting services
- Internet access
- Web site design/hosting
- Systems outsourcing/systems facilities management/administration

- Application services/leasing (ASP, MSP, etc.)
- E-commerce applications

Risks That Don't Fit

Some risks simply don't fit. FailSafe GIGA is not designed for technology companies that are involved in:

- Environmental testing and remediation
- Factory automation/process control
- Medical diagnostic/patient care
- Aerospace/defense
- Emergency response
- Structural architecture
